Visit mcafee.com/activate. Download & install the McAfee antivirus on Windows or Mac computer. Get the activation code via mcafee.com/activate to activate the software on your device.

1.1 Activate McAfee using McAfee.com/activate

1. Visit McAfee Activate official website mcafee.com/activate in any browser.
 2. Enter your 25 digits McAfee Activation Product Key.
 3. Log in to your McAfee account with credentials.
 4. Click Submit and Choose **“Country and language”**.
 5. Once Logged in, Download your Setup in download folder.
 6. Run application to install, You’re all set to go!
-

1.2 Activate McAfee Product Key

1. Open the link, i.e. mcafee.com/activate that is provided on the retail card.
 2. After this, from there, select the country>language>device type.
 3. Then access the McAfee Login account with the McAfee account credentials.
 4. After this, enter the McAfee product key.
 5. Note: The offline buyers can check for the McAfee product key at the back of the retail card.
 6. After entering the product key, proceed further with the downloading and installation procedure.
-

1.3 Renew McAfee Product || McAfee.com/activate

1. Open mcafee.com/activate.
2. After this, take the cursor to the **“My Account”** option.
3. Then click on the **“sign-in”** option.
4. Now enter the mandatory credentials to renew the McAfee product.
5. Once the user gets to the McAfee login account, then take the cursor on the **“My Account”** button.
6. From there, click on the **“subscriptions”** option.
7. After this, click on renew for the certain service.
8. Now once the renewal procedure gets completed, then a confirmation of the purchase will appear on the screen.
9. Moreover, the user can access their purchase history from the subscription page again.
